## WYFFELS | PRODUCT DESCRIPTION

800-369-7833 · wyffels.com

## PLACEMENT / MANAGEMENT

Semi-flex ear works over a wide range of populations. Versatile hybrid with low risk profile. Good late season intactness provides harvest

## RECOMMENDED PLANTING RATE

PRODUCTIVITY LEVEL				
HIGH	MODERATE	LOW		
36-40,000	34-38,000	32-36,000

# W5406rib

- Exceptional yields and solid agronomics
- Outstanding root strength and very low green snap risk
- High Goss' wilt tolerance
- Very high test weight grain

#### CONTINUOUS CORN MANAGEMENT

- If corn rootworm management is needed, consider using a proven soil insecticide or choose a SmartStax<sup>®</sup> or SmartStax<sup>®</sup> PRO hybrid.
- Good choice for fields with a history of Goss' wilt.
- A fungicide application is recommended to manage gray leaf spot and other foliar diseases.

SOIL ADAPTABILITY				
RATING	SOIL CATEGORY			
VG	LIGHT SOILS – LOW CEC (<10); OM <1.5%; low water-holding capacity; non-irrigated sand; timber soils; marginal productivity; drought prone.			
E	<b>MEDIUM SOILS</b> – CEC 11–18; OM 1.5-3.5%; well-drained; silt loam; high productivity.			
E	<b>DARK SOILS</b> – HIGH CEC (>18); OM >3.5%; well-drained; dark colored soils.			
VG	<b>POORLY-DRAINED</b> – Soils that have the potential to remain saturated for prolonged periods; side hill seeps; gumbo; muck.			
E = excellent, $VG = very good$ , $G = good$ , $F = fair$ , NR = not recommended.				

#### GEOGRAPHIC ZONE ADAPTABILITY

LEGEND: E = early for maturity, A = average for maturity, L = late for maturity; M = medium, MS = medium short, MT = medium tall, T = tall; H = high, MH = medium high, ML = medium low; F = flex, SF = semi-flex, D = determinate, SD = semi-determinate. Numerical ratings are based on comparisons among Wyffels hybrids of like maturity where 1 = Low, 5 = Avg, and 9 = High expressions of a trait.

Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. Roundup Ready<sup>®</sup> technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. *B.t.* products may not yet be registered in all states. Check with your Seed Representative for the registration status in your state. DroughtGard<sup>®</sup>, RIB Complete<sup>®</sup>, Roundup Ready<sup>®</sup>, Roundup<sup>®</sup>, Trecepta<sup>®</sup> and VT Double PRO<sup>®</sup> are trademarks of Bayer Group.
